ebrary Gets a New Look and Greater Functionality

January 21, 2009 – Palo Alto, CA, USA – ebrary®, a leading provider of e-content software and services, today announced that it has shipped a new user interface (UI) that provides a wealth of new and enhanced capabilities. Among other new features, ebrary’s UI offers chapter ranking of search results, QuickView™ for instant document viewing in a browser, and personalized bookshelves with folders for organizing and managing documents as well as single annotations.

ebrary’s new UI is now available with any of ebrary’s integrated products including e-books licensed under subscription and purchase models, ASP e-publishing services for distributing digitized documents online, and ISIS, the company’s standalone e-publishing system that runs on the customers’ servers, behind their firewalls.

“Today ebrary is pleased to announce the availability of a new user interface for all ebrary customers,” said Christopher Warnock, CEO of ebrary. “Based on customer feedback, and built upon a more advanced information model within ISIS, the technology that powers ebrary, the new UI provides ebrary users with new views into their information, improving navigation, discoverability and tools to organize their personalized information. We are looking forward to making many new and exciting improvements throughout this upcoming year, this new user interface being our first.”

Additional key features of ebrary’s new UI include the following:

- A choice of viewing capabilities: ebrary QuickView™ enables instant document viewing in a browser, and can be used in conjunction with the ebrary Plug-in Reader™ or ebrary Unity Reader™
- Numerous search enhancements including:
 - Additional metadata fields (Dewey Decimal, LC, ISBN, publication year, document language, and more)
 - Simple search on every page
 - Focus search by subject
 - Search history for the current session
 - Searching in multiple languages simultaneously for multiple content types
- Improved browsing with the All Subjects feature
- Enhanced help desk and quicker links to customer support

Librarians and others are welcome to schedule a demonstration of ebrary's new UI by emailing ebtrain@ebrary.com.

Additional News from ebrary

In a separate press release available at

http://www.ebrary.com/corp/newspdf/ebrary_Citadel_Jamaica.pdf, ebrary announced that four new customers have licensed its e-publishing system to distribute their own digitized materials online, while providing end-users with a powerful experience for finding, using, and managing information.

About ebrary (www.ebrary.com)

ebrary® is a leading provider of e-content services and technology. The company helps libraries, publishers, and other organizations disseminate valuable information to end-users, while improving end-user research and document interaction.

The company has developed a flexible e-content platform, which customers may use in a number of different, integrated capacities: ebrary customers may purchase or subscribe to e-books and other content under a variety of pricing and access models, and they may license the ebrary platform to distribute, sell, and market their own content online. All options are delivered using a

customizable interface and include a choice of ebrary Readers with QuickView™ for instant viewing in a browser and InfoTools™ software which provide contextual searching and integration with multiple online resources.

ebrary currently offers a growing selection of more than 170,000 e-books and other titles from more than 300 leading publishers and aggregators.

Founded in 1999, ebrary is privately held and is headquartered in Palo Alto, CA, USA.
